WELCOME NOTE

Welcome to Central Macedonia, the heart of Northern Greece: the best region to live in, the best place to film your projects.

We have been the first region in Greece to establish a local Film Office, in order to best facilitate producers through all stages of filming in our region and, at the same time, to take full advantage of the boundless variety of stunning locations our Region offers to projects of all kind.

We keep on developing all the necessary tools to advertise Central Macedonia as a 4-season filming destination, with a unique combination of nature, urban and cultural settings, where one can film practically everything—from tropical to snow.

The Film Office-Central Macedonia fully operates as a free public service which works as a liaison to government, local authorities, institutions and services regionwide in order to meet with all production needs, including location scouting, filming permits, queries about crews, equipment, accommodation, transport, technical facilities and logistical support.

We are committed to our vision of enhancing and promoting Central Macedonia as a competitive filming destination for both domestic and international productions.

We feel privileged that we have already welcomed and successfully supported throughout the first year of our operation 21 audiovisual projects (feature films, documentaries, television series, commercials, photo shoots etc) —among them two major Hollywood films, The Enforcer with Antonio Banderas and The Expendables 4 with Sylvester Stalone, Jason Statham, Andy Garcia, Megan Fox, 50-Cent and many other famous film stars.

Within the legal framework of the attractive filming incentives offered for filming in Greece, we are developing a functional local network of professionals, companies and institutions, who work together under the same goal to advertise the diversity and the advantages of shooting in Central Macedonia. The Film Office-Central Macedonia is here to provide all the necessary guidance and to assist you in every step of your project. Make sure to meet your next shooting location in Central Macedonia, the best place to start your story!

Apostolos Tzitzikostas
Regional Governor of Central Macedonia
